

# US Echo II

Ultrasonic Flow Meter Qp 0.6-15 m<sup>3</sup>/h

US ECHO II is the standard for highly accurate flow meters. Issued from CF Heat Meter's family, US ECHO II easily adapts its self to different types of calculators. Its powerful electronics enables any user to take advantage of all state of the art functions maintaining an extraordinary high precision throughout the entire measurement curve.

Flows are measured from 6 L/h up to 33 m<sup>3</sup>/h for different piping going from DN15 up DN50. All flows exist for PN25 applications.
